NodbuggerWhy should I shut up when I am correct?

As I said, go live in Iran, Libya, pre-war Iraq, North Korea, China, or Cuba then come back and tell me who the criminals are.

Actually at the end of the term... I AM GOING TO CHINA. So yes, I will be able to tell you who the criminals are. And it will always be the same answer: Bush and his war mongering croonies.

Anyway Aprime's right... you can't debate with a person who has caught Bush's retorical line - hook line and sinker

(sorry for any spelling mistakes)
