NodbuggerYou cannot sit there and say Iran is in much better condition than the US.
Never did.

NodbuggerYou cannot sit there and say Iran's leader is better than Bush.
Never did.

NodbuggerYou cannot sit there and say your mother did not pick up another while she lived in Iran.

The US should not be compared to other countries. Of course it will usually look better by comparison. You ought to compare the US now and the US 5 years ago. Saying "Well, things look bad, but you can thank your lucky stars we don't live Tajikistan!" is retarded.
