---

Well today I have had to ban 2 people who where cheating, Renguard was running at the time as it kicked none RG users before and after I had to kick the second guy. Ive heard Rg can be bye-passed, if so I hope you guys are workin on a way to fix it soon. Our server has been doin great over the last few days with RG running, up until today there have been no instaces of cheating at all. Anyway I thought I would let you guys know.
