spreegeml thiught that Tanya was Allied not Soviet so how could I build her when I was Soviet also isn't the mammoth tank From CnC Tiberian Dawn

OMG...

You never played Red Alert before?

The soviets had the Mammoth Tank. And yes the Mammoth Tank did come from TD, as did the majority of the RA1 units.

And I'm not sure, but I think the Soviets got Tanya in MultiPlayer because it balenced the game.
