i have a server running and brenbot installed everything works fine (2 months) till this morning, i was in my server and the SFPS was 25, most of the time its 60/62, so i looked on my server and it said PAR.exe got 99%...
and i looked on mirc i tried commands but didnt listen while bot was in there.
More ppl got this problem???
And more importnant: how do i fix it...
