It is :rolleyes:

Also, Motoxpro, about the only way you're gonna be able to reinstall the Westwood Online Shared Components to fix the prob is from Renegade disk 1 - or, you could always have someone copy their Renegade CD1 to their computer, then compress it and send to you.

No matter what though, the only way you're going to find the WOL Shared Components for Renegade is on the Renegade disk 1 - I'm glad that I have 2 copies of Renegade
