I was banned from a site. Im not sure why, I dont use codes or hacks or cheat in anyway. I think I play fair. Never had any complaints.

Before I got booted, we were in Under, and I was in a Mammy (felt like being noob), and we had control of the field. Nod was comming up their tunnel, so I rocketed the tunnel for a min or 2 solid and got 6-7 boinks in the process.

The next thing I know I got booted by vote, no idea why.

Anyway I can get de-banned or at least fine out why the boot to begin with?

Thanks
