I hate jackasses like that. I personally think he's cheating but since he got kick-banned it doesn't really matter. RenGuard would be a solution, however there would be less people playing (too lazy to download it and so on) and I don't think there are that much cheaters.

I can't believe he starts to bash you. If he wouldn't disobeyed orders his sweet little evening (how innocent by the way) wouldn't be ruined. Maybe he did cheat, maybe he didn't. If he didn't he could at least prove it.
