OK here goes.

Firstly WOL ranking doesn't mean shit (and the fact that my clan is 1st on the WOL rank does not affect that view) because it's unmoderated. A good example is about two months ago, a clan called -IBGI- were in 1st, simply because they kept kicking everyone who was about to beat them.

The real clan rank is at <http://clanwars.cc>.

You get points based on the rank of your opposing clan i.e. if you beat the clan that's top of the league you get craploads of points for that... just beating a clan that's never played before is usually a 10-pointer.

The best thing about clanwars.cc ranking is unlike WOL, you can get games added if the ladder doesn't report them (because WOL sucks), and games removed if something happened that shouldn't e.g. someone cheating, or the host kicking their opponents to avoid a loss.
