I like it, but since there are only 4 boxes for maps, can you put in the maps
C&C_Siege
C&C_MutationReDux
C&C_FieldTS
C&C_Snow

These are the maps with vehicles, and possibly much more popular than the other two.. Also, can you put in small images of the maps instead? I can supply source images.

If this works out, I will need localized versions of this for french and german. I got texts.
