They won't lol!

You can post a million email addresses and still no one will email you!

1. You haven't started off good with the crappy 1st post.

2. You didn't make the 1st post very professional (5 lines? in those lines should be a fully detailed description of your idea, a website/forum to sign up to, not an email address which no one will use, you should of explained how many members you will need and their exact role would be and don't even talk about BETA testing when not 1 model has been made!)

3. It sounds like, whilst you was trying to get to sleep one night you suddenly, without thought got an idea in your head and as soon as you woke up, you came straight here to write a 5 line topic???

I don't mean to sound harsh cane m8, but at the end of the day you won't get a mod team, and if you do, I can certainly say we won't see an end product! I'm not saying you can't try but, its time to see reality and the facts.

Regards,

Andy.
