Bug Name: Download "mirror" Bug

Bug Description: It won't let you download Core Patch 1. (It stops when trying to download mirror.txt (which is the first file)).

PC Details:
- The pc has been reinstalled two days ago, so it's a clean Windows XP SP1 setup.
- No firewalls or antivirus software have been installed.
- The default windows firewall is disabled.
- Access to http://www.blackhand-studios.org with a browser is possible.

Bug Status: I have discussed with mac and Jonwil already, but they don't know how to fix it yet.

Only post below if you got more info or the same problem.
