It works like this:

You signup at http://www.renguard.com.
Then after a short while you get accepted.
When you start RenGuard (the program) it should start doing a pre-check and after 30 sec. it will show you the download screen.

In RenGuard options you should have the following options unchecked:
- Disable Patch Download
- Automatically Start Renegade

If you start RenGuard and nothing happens (so you see no pre-check or something), then you aren't accepted yet (or you didn't signup at http://www.renguard.com)
