hydra1945Xtrm2MattApprantly, he's holding n00bstories hostage. I've heard things, if n00bstories doesn't do what "he" wishes, n00bstories dies.

Funny, huh?

So, what, does Crimson just roll over and play dead for him? I thought she had guts....

Apprantly. She obviously doesn't want n00bstories to "die" therefore she does what he says.

He abuses and abuses.. incident after incident, and look what happens nothing.

But, it'd be a different case if I did what he (Kholdstare) does.

Oh well, It's her network. I'm not bothered anymore.
