a little friendly compotition is healthy....this is getting a little out of hand, both mods have their ups and their downs, mistakes are being pointed out every day for each mod and in my opinion, the team that trys to correct the mistakes and makes a effort is the team that has the best mod, after all, the idea of making a mod is so other people can enjoy your ideas and hard work. not so that you can boast about your achivements and ignor your flaws. i think everyone would be better if you guys made up and instead of dredding each other, help each other to better both mods.

you have a choice, do something about it or you can just keep going on and on about this the way you have. putting someone down is not a 'good' and 'responsible' person would do. some day, your going to wake up and realise that this whole thing is a mistake, until then, try to keep to yourselves, we don't want to know how much you guys feel threatened by the other mod. If you guys think that way, then go ahead and do it, we don't care, nor do we want to know.
