hello all

since 3 day's ago i have installed CP1 and it seems that my renegade is slower at loading and laggy

Example: a friend of my has a 1,8 mgh comp and i have a 2,8
u usally be in the game much ealier then him but after i have installed CP 1 he is much faster then me

And i lag much more in the server is play

I have never lag or even lagspikes on the fanmaps server but after i have installed CP 1 i suddenly lag

does anyone know if this has to do with CP1

I hope you can fix this

PS: i did not have reinstalled my renny
