"God creates dinosaurs, God creates man, man destroys God, man creates dinosaurs..."

"Dinosaurs eat man...woman inherit the earth"

Ok, sorry, but this thread needed some comic relief.

Side note:

My beliefs are that there is no god. Why? As there is not evidence put forward that he exists. People will tell me that's the basis of faith, I tell them, that's the way I think, if no proof is shown that it exists, then it does not exist.

For the record, I'm 15.
