bigejoe14Quote:I'm just saying that the two parties really seem to have split everyone down the middle.

That's mostly because of the Liberal party spreading hate. If they would just act like normal human beings and stop all of the name calling and lying people would vote more on issues rather than just words. But since the left wingers are so bent on getting in the White House it dosen't look like they're gonna stop anytime soon.

It is entirely the fault of one party that your country is polarized politically.
