Quote:Does anything happen in the year 2012? I've heard stories about the world ending.

In my 2012, I was 14 years old spending most of my time living, running and hiding in the woods and rivers of central Florida. The civil war was in its 7th year and the world war was three years away. Yes, there are unusual events in 2012 but they do not cause the world to end.

Unfortunately, I have decided not to discuss events that you or I can do anything about. It is important that they be a surprise. Perhaps you are familiar with the story of the Red Sea and the Egyptians?

You apparently didn't read much into it. He doesn't act alien to everything because he explains a lot of things in-depth. Being a traveler in time doesn't mean you're going to be a nuclear physicist. As he said, being an airline pilot doesn't mean you're an aeronautical engineer. He's not going to know everything especially since this time is about 2% different from where he originates.
