Subject: IMPORTANT If you are having problems installing Core Patch 1
Posted by flyingfox on Mon, 18 Oct 2004 02:10:35 GMT

might not be the place, but I've had this "core patch 1" since months before it came out -- it was posted as bhs.dll with some server side script from black-cell. if people are having problems they can just do what I did and install the bhs.dll to their \renegade folder... i'll post the link later.

never mind, here it is http://web.black-cell.net/scripts19.zip
