I said I liked the CP1, but I didn't like the CS beeping sounds
......c&c city map crashing....

Ok i'm home and on my name 2 files are the original c4 and beakon sounds extract them to your renegade\data folder and that's it. Renguard will not bitch about any sound files so don't wory about it.

This is my version of Blazer's beeping c4. 1 short beep 10 seconds after you set it, 2 short beeps on 20 sec, 3 short beeps 25 sec, 1 long on 28.
