I ordered 256 like 2 days ago, it should be here tomorrow (Monday 7th).

Yes, i agree with the graphics card. This graphics card is from my old pc (i built this ), and my next buy for my PC is going to be a geoforce 4 ti something. Not decided yet

Thanks all, great help.

One last question, if your system gets over-heated, could this come down on your CPU Performance? Like, if its cooler (the CPU) its performance increases? :rolleyes:
