Jesus Christ you guys are all flipping out and OMG VALVES WAREZ VERSION U RE TEH SCRWVED!!!! You don't have to download a warez version. I know a large group of people who all chipped in a little bit to purchase a single instance of HL2. They all logged on and downloaded HL2. Steam doesn't care how many people play the Single player. If 500,000 people coordinated and all wanted to play hl2. They could buy gold, They would have to pay a 180th of a cent. To ALL play. Now if anyone wants to play the Multiplayer they can't do that, Which I would assume Oblivion does seeing as he wants to mod it. I just wanted to point out that while Valve thinks they're so smart, and you all praise them, they left a huge ass whole... lol
