Try_lee! don't get why people are so uptight about something that isn't real!
I couldn't care what it is, whether blowing up London in YR or blowing up famous landmarks like the eiffel tower. It is just a game and has no real effect on real life at all.
Those types of people need to find something worthwhile to complain about.

WELL SAID TRY_LEE!

When RA2's Expansion YR came out I played it at my father's house with his nosy ass girlfriend (i....must....destroy....) was watching me play it, and watched me play a mision where the briefing said I need to mind control the president and destroy the white house.

Shes all yelling at me 'FAIL THAT MISION OR I WILL BURN THIS CD!' Im like yelling back 'Fuck off, its mine!'

She took it away and tried to hide it...luckly for me shes a dumbass that hides stuff on top of the refrigerator.

Honestly people, Its a game. The people that are bitching about it are usally the same people that say 'Its just a game!' when people argue over sports or whatnot. Its pathetic really.
