Subject: zero bug with cp1 server?
Posted by Oni AngeR on Tue, 30 Nov 2004 15:42:00 GMT

I was playing in my own server it has br1.40 and cp1 fds (updated) suddenly me and some others got the zero bug :S anyone have id's how ?? and no we dont have installed other skins (at least i didnt)
And just for the record im on renguard (so were the others)

/Anger

[edit] my server is constantly crashing and restarting it won't gameover automaticly either after the first map (<< this should happen with SSAOW no?) :S im really confused any help?
