I have been playing C&C: Renegade since the month it has been released, and though I don't get to play much due to my poor internet connection, it is my one of my favorite games. Command & Conquer is my favorite franchise. I own many C&C games and have played my friends' copy of older C&C titles. Man, they rock! Despite little disappointment the rushed-out game fares, I never think Renegade is not good. Renegade is a decent game. I'm not saying it's the best game in the world, but it is one of them. Those people high up in the boardroom abandon it just b*cough*E*cough*cause they c*cough*A*cough*n't make profit of it. It overwhelms me to see the community keep going, and mind you, I'll choose to play Renegade over Counter Strike anyday.

Santino2k1 for fuck sakes. whats with people hackin renegade, nad shit like that. why are yall fuck up a decent game up like this, i dont get u fuckheads. oh well i quit renegade anyways. cant wait till MOX baby.
