You're right, Renegade is a flawed game, so maybe that's why we want to fix it? Hmm...an idea! Also, it's hard to kill a n00bjetter when they aren't your main focus. Not to mention when you're in a Humvee trying to go to the other base and you're being hit by a n00bjetter. That kind of defeats the fucking purpose of being in a vehicle. It's a flaw that can be fixed easily, and it should be.
