NeoSaberNaamloosWho still uses Win98 then? Even people with sucky pc's like me use XP...
:oops:
I use Win98. It's run fine ever since I replaced my lightning fried, crappy motherboard. As a nice
added bonus, most viruses these days are made to effect WinXP so I'm practically immune.
You can thank good 'ol Bill Gates for XP.

BTW, did you know that he has a heated driveway? I mean, com'on...

Overall, no one disserves to get hacked...just isn't right. It's like third degree murder.
