LaeubiI think it has somethimg to do with the LOD (Level of details)
Renegade adjust the amount of Polygons showed up consistiong on your grafik posibileties.

Set your grafik settings to the lowest posible seting and you will notice that the vehicles loocks a bit more bad that if you set it to the highest options.

So if many things happens Rengade sitch to a 'lower' LOD may thats why somtimes the wheels diapear because renade switch back to higher level and the mesed up with the wheels.

SOunds a bit confusing? Don't mind. lol. Just a crasy voice in my head told me that.

Thaat actually makes some sense w00t I belive that this may well be cause of the phantom wheel thiefs.
