j_ball430Fuck off, bitch. I am not here for your approval. Just because your mindless-liberal bullshit doesn't work with me, doesn't mean you can start shit.

Wow, must have touched a nerve there. I must be missing where my "mindless-liberal bullshit" is though, I was just stating facts. Age does not denote wisdom, and veterancy does not denote intelligence. There are plenty of counterexamples. If stating facts is liberal, I suppose I am guilty. Either way, I think that term has no bearing on this discussion whatsoever and you're just throwing things to see what will stick.
