cowmisfitlts so easy because everyone on there sucks, when i can go in any server on the game and get best k/d and most kills every game and get top 5 just sniping in AOW (Deadeye Blackhand) Its fucking sad, or when i go in a server and can get 20 MVP's in a row.

Ah.... I remember the days when I could get MVP in a public server and thought I was the best player ever because of it. (About a year ago). Guess what happened after that? I'll tell you.

I played Icesword7 and Doomflama 1v1, got absolutely assraped by both of them. I then realised there was a whole skill level that I had never seen in public servers, and a year later I still haven't.

Public servers are easy as fuck to win, because most of the time they are full of idiots and noobs, and even when they are full of "decent" players, they aren't working in co-ordination. When I say "co-ordination", I don't mean three people deciding to get stanks at the same time. I can get a med, light, artillery or an orca/apache and get 100 kills 0 deaths in twenty minutes with my eyes closed... in public servers, that is. In a clan game, that would not happen in a million years.

cowmisfitl gets old after a while, i played from the release, the fun ran out for me, too many nubs who accuse of cheating , it makes it no fun.

If you played BR, FE or LIGHT in a small game, say 5v5, they wouldn't be the ones making the cheat accusations, you would be.

cowmisfiti'd figure if you have been in the community longer than a month you'd know at least who [FoD] was, o wait your one of those kids who's been playin for a few months and thinks he's the shit aint ya.

Do you consider me "oldschool"? Most people at N00bstories seem to. Odd really, because I bought Renegade about a year and a half after BiGPooLoG did.

cowmisfitl don't even have to make this kid look like a moron, he's doin a mighty fine job of that himself lol.

I don't have anything against you so this isn't a flame: BiGPooLoG is right, you are wrong.

j\_ball430Why the fuck do you newbies come up in here and start attacking the forum veterans? It doesn't make any fucking sense at all. You can't possibly win when you do.

Refer to my above statement about being "oldskool". Other than thread, if you read this thread from start to finish you'll notice it wasn't BiGPooLoG who started the flaming.

j\_ball430I wasn't talking about you. I was talking about Mr. 8 posts who registered today."

Let me tell you why BiGPooLoG decided to register today: because I happened to see a different thread where a clan called DT challenged BR to a game. BR members don't visit this forum as far as I know, so I showed the thread to Mr B. Log.
