Hey, just wondering...

Is the model of the GDI Humvee in renegade a replica of one or is it fiction like the recon bike?

If it is a real vehicle in real life, does anyone have any clue what the full Humvee model is? (i.e. Ford FOCUS or Lotus ELISE)

Its just been bugging me thats all, I have never seen any life size pics of one and I was just wondering if it exists or not, if so, I want one

Cheers,

Andy.
