Hey, first off let me say GOOD JOB ON THE CORE PATCH 1, second i think we can do even better.

I would like to suggest you add a "veterancy" system to RENEGADE similar to the one in C&C RED ALERT 2 so eventually when u get the third promotion you can self-repair(even though i realise that the vetrancy system didnt appear until later C&C games), next, i would love to see Mutants for GDI aswell in the extras or atleast some secret vehicle that's better than the PICK-UP TRUCK & SEDAN, there was one more thing regarding the new maps, in MUTANT REDUX how do u collect (or even can u collect) TIBERIUM in the HARVESTER that u can buy? and how much do u get if u do harvest?
