j_ball430 I'm not stupid by any means. I'm extremely bright. You just have to know me to know this. Everybody that I've had a civil conversation with knows that I have a good amount of intelligence. Whether or not I show it on here doesn't really matter.

Actually, since you're trying to show that you're more intelligent than someone else on this forum, it DOES matter if you can prove it via your actions...

Perhaps you should try thinking before you write, or reading your posts before hitting that submit button.
