Well as you know if it is not the will of GOD it is considered a sin. GOD did not mean for us to kill each other, steal, or have promiscuous sex with others and that is considered a sin. Since these are not the will of GOD they are sins..........You see where I am going here? If GOD meant it to be Man and Women only, that is his will, hence if a man and man or women and women that is a sin because GOD does not intend for this to happen. I know it is hard to understand this, however you have to apply previous teachings (rules) that are in the bible to fully understand what the bible is trying to get across.

Main Entry: id•i•o•cy
Pronunciation: 'i-dE-&-sE
Function: noun
Inflected Form(s): plural -cies
1 usually offensive : extreme mental retardation
2 : something notably stupid or foolish

If I was an idiot, I have extreme mental retardation and I doubt I would be able to have an intelligent thought. Now just because someone is able to come up with a good idea doesn't mean they are intelligent, it is possible they just had a fluke (definition below) and they were able to come up with something that worked. Also if the issue deals with common sense that has nothing to do with intelligence. You can have an intelligent person that has no common sense, I believe some people would say he is the smartest dumbest person they have meet. You could call that a double negative if you like because you cannot have a smart dumb person, they are complete opposites. So you are still unable to remark about any ones intelligence since you are unable to understand this and cannot make up your mind if I am an idiot or intelligent.
