DJMScampDJMOh god not this again ^^.

:rolleyes:

enter grammar police

Well, if you'd take the time to read what you type this wouldn't be an issue.

Not trying to start a flame war here, but in my opinion, it really doesn't matter about grammar as long as you can read what someone as written. Which in his post, you can.

I don't mind small mistakes, but when you're going to change the entire meaning of the sentece it's probably best to fix it.

Anyway, back on topic. I'll probably download it and test it. If it's any good I'll buy it.
