HomeySpoonyKinda takes away the point of using anything else, doesn't it?

If you think you can't get MVP using nothing but a n00bjet to shoot tanks you're not damaging, I'm guessing you never played in Fastc0nn a few months ago. It's all people did...

I manage without shooting vehicles, excluding air :/

Hence the 80 kills

Just as easy to do with a 500 sniper, if you're any good.
