Scampl talked to the host, the datacenter the server is in is currently under attack. Jake and I should be getting a dedicated server soon enough.

Grrr...how the fuck did you talk to him? I've been trying to get a hold of that fucker for a couple weeks because of how he's ripping me off by not fixing our hosting thing. I'm gonna get a refund, and then I'll be able to put that \$23 back towards a dedicated.
