Ok I should have said geared towards FPS people.

Renegade was designed as a treat to C&C fans nothing more, it was never meant to be "gotten" by everyone or be the next Half Life. I remember an interview a site had with Sperry and those were his words basically.

As for saying its better? Shitting on the game and those who still play, enjoy and support it, at the same time going on constantly about how good CS:CS:S looks has 500X more people yadda yadda.

"Implied" mean anything to you?
