if you remove renguard, make sure the following are/aren't there:

- game.exe (353kb) - IF there, delete.
- game2.exe (4.20MB) - IF there, rename to game.exe
- renguard.dll (566kb) - IF there, delete.

then try the renguard installation again, if it still doesn't work, post here with the exact error message.
