el-fraggo - You've got to know Mylo to get this one & many of these peeps don't know him...He's quite the unusual character to say the least.

For those who don't know him, he's a ~26yr old Gamespy lobby whore who lives at home w/ his Dad while squeezing the ol' man for all he's worth. He also sends pictures of his armpits to the lil' pre-pubescent punks in the Gamespy lobby - pretty funny actually! - I like him.
