Thanks for the reply. Yup I've spent enough time playing the game. The (grown ) kids may have found a way to kick me. :oops: Anyway I was kicked /banned by my rengard last night while in a game with the message that my data file always2.dat was corrupt. Therefore.... I have (i think) deleted all the renegade files though some are difficult. I've had to power down the computer several times to delete all of them. Just searched for "renegade". (Amazing how many files were left after the uninstall program.) Now I have to weigh whether I want to regain my addiction by reinstalling this great program. You'll know what I decided when/if you see me back as....Sutinjust  
Thanks again, good insight!
