---

After a lot of work and a LOT of testing (thankyou to all my testers for the help), I have finally completed scripts.dll 2.0 (the biggest release yet with many nifty things for mod authors to use). Get it from <http://www.sourceforge.net/projects/rentools/>

Exactly what will be in the next release and when that release will be I dont know yet but there will definatly be one (I already have a few things on the to-do list)
