I'm an Athiest. I do not believe in any deity

When your going down to yoru death in a airplane, you'll be the first one on your knee's "GOD SAVE ME O PLEASE DEAR GOD IM SO SORRY PLEASE HELP ME!!"

Listen, you pre-pubescent fuck, you can't go around making assumptions about me like that. You know nothing of who I am, or what I believe in, so you have absolutely nothing to back up your statement.

And to come back at it, no, I would not beg God for mercy and to save my life. In fact, I would go over the memories of my life and wonder if I made an impact on society or history. If my time in this world has come, then it has come. I accept what fate dishes out, and if that means dying when my time is up, so be it.

And believe whatever the hell you want to believe, I don't care. Just don't EVER preach to me about being wrong in my beliefs. As an Athiest, I don't go around bashing Christianity because I don't believe in it. I suggest you don't bash my beliefs because you don't like them.

Believe that load of crap all you want, You can not tell me you wouldn't think of your life when it comes your time to go. Thats complete and udder bullshit, you are human, its natrual, you couldn't stop it if you tried. You can say you don't belive in god and thats okay, and i can completely respect that. However being such a dumbasss as to say you wouldn't at least THINK of your life, thats just stupid.

I do agree with you, if its my time to go its my time to go, but i know that i'd at least have some thoughts on what i've done with my life.
