Ok, for $10 a month i'll give you 25gb's of bandwith a month, Cpanel, and 3 gig of space.

Thats from http://www.FreeFlow-Solutions.com, my Web Hosting, Graphic Design, Web Design and Coding site.

For an extra one time fee of $20 we'll even make you a basic site an code it. Its i've seriously reduced price on the web design for you only because i'm feeling festive, lolz!
