OK, I have the base defenses working exactly as I wanted them to. Except, the first problem still is there.

The Nod Airstrip keeps making harvesters and the Weapons Factorys doesn't make any harvesters. I added a scripts.dll file in the scripts folder in my mod directory. And, I did exactly as you said, Andy. Still has that problem though. I'll keep trying to see what I get.

Thanks again for the help.

EDIT: I take that back, It's working perfectially now. Thanks again.
