I haven't seen the movie yet, so I don't know what he does. But as long as this guy didn't ruin a complete game, just to prove his point I'm not mad. We can all cheat if we want to. So Showing off that you can cheat, is useless. Pointing out for the moderators with a bit less knowledge about how cheats work, is usefull.

AircraftkillerIn many servers that "force RG" stuff is used as an excuse to remove a player that killed the person in question.

Before Renguard, people used possible cheating as an exuse to Kick/Ban a player that killed the person in queston. I think this is at least an improvement, although it won't stop power abuse I doubt it could really make it worse.

Also Aircraftkiller, how can you actually know what a lot of servers do. If you don't actually play the game?
