TheGunruni believe it was wine and do u have a link to where i can get the knopix thing

edit: it is actualy cedega

Here's the link: <http://www.knopper.net/knoppix/index-en.html> Make sure you download the .iso file. Burn the file as an "image" with a CD Burner.

Cedega is from TransGaming. Note that Cedega is NOT Free Software or Open Source.
