=[DT=gbull=[L]=]shareware i believe. Like Bearshare or Kazaa. and creed, wut is that renegade file you blurred? doesnt make much sense to blur a ren file, the other stuff i understand, but y the ren file? hehe, bit nosey arent i

errr its nothin with cheating i can garentee you that, creed doesn't cheat, so keep to yourself bull

O and

I got style XP and fucked up my desktop had to redo it, so after all that effort, im going to repost my desktop
