cowmisfitl don't care what anyone says, the BBC does not like America, everytime I've ever watched it they do nothing but put in smartass , cheapshot comments against us. This is just another smear campain from them.

Care to point out a few examples of how they don't like America? You have got to stop viewing your country in this "holier than thou" aura where you can never fuck up or do any wrong or stupid.

While this story sounds pretty ridiculous, but none of you have refuted it.
